Your name
The date

Description
Explain what project you chose and why.

Methods
Explain what you did to complete or work on your project. If you are submitting an app design/pitch, include all the relevant information needed to know about your app.

Results
Explain the outcome of your final project and what you were able to accomplish.

If your project is incomplete and you are submitting an in-progress project at the end of the day, you MUST explain here how you intend to finish the project at a later date.

Media
Include any screenshots, images, or media that help describe your project and your results. If you are designing / prototyping an app, be sure you are including all necessary sketches.

[Optional] Group members
If you worked with a group, include their names here. Describe the work you did on the project as a group member.

[Optional] Files provided
If you have additional files you are providing for the final project, include their file names here. Submit your replit file if you did a coding project.

[Optional] Opt in/out of posting the project on our website
You may indicate whether you would like or NOT like your project to be featured on our course website next month.
